- LogMeln

## OUT OF OFFICE...

I'm on a quest to visit my 100th major museum by the end of this decade (36 to go). When strolling new neighborhoods or hiking, my camera is always ready for fresh views of architecture or nature. Knock on my door at midnight and you may find me painting with an egg tempera and acrylic technique, or archiving the multi-generational photo collection of my family's genealogy. To relax, I develop patterns for textiles, as well as knit and sew.

22. September 2021 Astoria, OR, USA
